

OUR COMMITTEES WANT *you!*

StuPa?

The Student Parliament (StuPa) is the constituent body of the students' self-government. Here you can e.g. discuss semester contributions or in general financial means of the student body. Besides, you can determine our constitution. The StuPa deals with all concerns of higher education policies of the student body. Sounds boring, but this work is fundamental for our self-government. The StuPa meets several times during the semester.

AStA?

The General Students' Committee (AStA) is the executive body of the students' self-government. Here you can fill an unit or create a new one to bring your concerns to the university (e.g. sustainability, social issues, culture, international, university policy, ...). Furthermore the AStA organises the "Hochschultage" and offers various services (e.g. financial support, students' loans/funding, job exchange, legal advice, semester ticket, ...). The AStA holds its meeting every Wednesday at 5:30 pm.

FSR?

The Student Representatives (FSR) are the students' representation of the respective department. Your department has its own FSR that only cares for the students' concerns in your department. As a member of the FSR you are approachable for the worries, questions and troubles of your fellow students. Moreover you can take on own jurisdictions or organise cultural events, the "Hochschultage" and partys. The FSR hold their meetings every Wednesday afternoon.

SENATE?

The Senate advises in matters of research, teaching and studies, which affect the entire university or that are of fundamental importance. Furthermore the Senate monitors the management of the universities' presidium. It does not belong to the students' self-government. In the Senate you are one out of five students that are voting members. Further, professors, academic & administrative-technical members have the right to vote. You can decide on e.g. examination regulations, development planning of the university or the introduction / revocation of degree programs.

WE ARE HAPPY TO SEE YOU!

You see, in all committees there is a lot to do and to shape. The university lives from students' self-government and from the people that dedicate themselves in the committees. Here you find a lot responsibility, but also plenty of fun, new insights behind the everyday life of studying as well as community. Come around, have a look at our meetings and get to know us!

YOU FIND MORE INFORMATION IN THE 123-READER, ON THE HOMEPAGE OF THE AStA: asta.hs-fulda.org/gremien/ AND ON THE WEBSITE OF YOUR DEPARTMENT
